数理逻辑第2次习题作业

教材课后习题作业(P85-86)

1. 在 PC 中证明下列事实 (不能使用演绎定理):

$$(1) \mid -(A \rightarrow (A \rightarrow B)) \rightarrow (A \rightarrow B)$$

(2)
$$\neg A \mid -A \rightarrow B$$

(3)
$$A \rightarrow B, \neg (B \rightarrow C) \rightarrow \neg A \mid -A \rightarrow C$$

$$(4) \left[-\left[A \to (B \to C) \right] \to \left[A \to (D \to B) \right] \to \left[A \to (D \to C) \right]$$

$$(5) \left| -\left[A \to (B \to C) \right] \to \left\{ (C \to D) \to \left[A \to (B \to D) \right] \right\}$$

(6)
$$[-[(A \rightarrow B) \rightarrow C] \rightarrow (B \rightarrow C)$$

$$(7) \left| -\left[(A \to B) \to (B \to A) \right] \to (B \to A) \right|$$

(8)
$$|-A \rightarrow [(A \rightarrow B) \rightarrow (C \rightarrow B)]$$

$$(9) \mid -[(A \to B) \to A] \to A$$

(10)
$$\left[-\left[(A \to B) \to C \right] \to \left[(C \to A) \to A \right] \right]$$

$$(11) \left[-\left[(A \to B) \to C \right] \to \left[(A \to C) \to C \right]$$

$$(12) \left[-\left[\left[(A \to B) \to C \right] \to D \right] \to \left[(B \to D) \to (A \to D) \right]$$

2. 利用演绎定理在 PC 中证明:

$$(1) \mid -(B \rightarrow A) \rightarrow (\neg A \rightarrow \neg B)$$

$$(2) \mid -(A \to B) \to ((B \to C) \to (A \to C))$$

(3)
$$|-((A \rightarrow B) \rightarrow A) \rightarrow A$$

$$(4) \mid \neg (A \to B) \to (B \to A)$$

上述 1题的(1),(3),(4),(9);

2 题的: (1),(3)

为需要提交的作业,下周五(12.9 号)上课前提交,因为返乡不方便提 交的可以延缓 2 周再提交;收取对象为所有同学。
